Please give a general description and introduction to your organization

Logitech International S.A. engages in design, manufacture, and marketing of personal peripherals for personal computers and other digital platforms in Europe, the Middle East, Africa, the Americas, and the Asia Pacific. It offers mice, trackballs, keyboards and desktops, gaming controllers, multimedia speakers, headsets, Webcams, 3D control devices, speakers, headphones, earphones, and custom in-ear monitors. The company also provides wireless music solutions for home, remote controls for home entertainment systems, and PC-based video security systems for home or small business. It offers its products for PC navigation, Internet communications, digital music, home-entertainment control, video security, interactive gaming, and wireless devices. The company sells its products to a network of distributors and resellers, including wholesale distributors, consumer electronics retailers, mass merchandisers, specialty electronics stores, computer and telecommunications stores, value-added resellers, and online merchants; and original equipment manufacturers. Logitech International S.A. was founded in 1981 and is based in Apples, Switzerland.

0.2**Reporting Year**

Please state the start and end date of the year for which you are reporting data.

The current reporting year is the latest/most recent 12-month period for which data is reported. Enter the dates of this year first.

We request data for more than one reporting period for some emission accounting questions. Please provide data for the three years prior to the current reporting year if you have not provided this information before, or if this is the first time you have answered a CDP information request. (This does not apply if you have been offered and selected the option of answering the shorter questionnaire). If you are going to provide additional years of data, please give the dates of those reporting periods here. Work backwards from the most recent reporting year.

Please enter dates in following format: day(DD)/month(MM)/year(YYYY) (i.e. 31/01/2001).

Modules

As part of the Investor CDP information request, electric utilities, companies with electric utility activities or assets, companies in the automobile or auto component manufacture sectors and companies in the oil and gas industry should complete supplementary questions in addition to the main questionnaire. If you are in these sectors (according to the Global Industry Classification Standard (GICS)), the corresponding sector modules will be marked as default options to your information request. If you want to query your classification, please email respond@cdproject.net. If you have not been presented with a sector module that you consider would be appropriate for your company to answer, please select the module below. If you wish to view the questions first, please see <https://www.cdproject.net/en-US/Programmes/Pages/More-questionnaires.aspx>.

3.2

Does the use of your goods and/or services directly enable GHG emissions to be avoided by a third party?

No

3.2a

Please provide details (see guidance)

3.3

Did you have emissions reduction initiatives that were active within the reporting year (this can include those in the planning and/or implementation phases)

No

3.3a

Please provide details in the table below

Activity type	Description of activity	Annual monetary savings (unit currency)	Investment required (unit currency)	Payback period
---------------	-------------------------	--	--	----------------

3.3b

What methods do you use to drive investment in emissions reduction activities?

Method	Comment
--------	---------

3.3c

If you do not have any emissions reduction initiatives, please explain why not

Logitech is in the process of establishing a baseline of GHG emissions which can be used to set future emissions reductions. It is expected that Logitech will establish an annual target percentage improvement and this percentage improvement will be based on previous year's emissions data. The expectation is that an ongoing process of year on year improvement will be established.
